

VACUUM TUBES

For Audio and Radio Applications

RF Parts stocks a large inventory of tubes of all types. Most audio and receiving tubes are considered as NOS (New Old Stock), as production of these had ceased by the 1980's. Tubes will usually be supplied in their original boxing, except where box has been damaged, the standard white box will be used.

Tube listings and prices are for current stock at time of catalog printing. Availability and price are subject to change without notice.

Tube Matching: Receiving Tubes not noted as matched are usually available as matched for an additional \$2.00 per tube. Matched Tubes are selected for similar transconductance and cathode current.

Warranty Information is listed on page 211.

Production of Receiving and most Special Purpose tubes ended in the 1980's. Tubes are offered "new, old stock" or NOS and Certified to meet original manufacturer's specifications for quality and performance. Some boxes may show shelf wear from handling, but in no way is the tube condition affected.

Supplies limited to stock on hand.

TV SWEEP TYPE receiving tubes are not designed, rated, guaranteed or warranted by the manufacturer or RF Parts Co., for use in linear amplifiers. Please be sure the tubes you received are correct for your equipment. We do not warranty or guarantee suitability or reliability of any sweep tube used as an RF amplifier. RF Parts Co. inspects all tubes before shipment to assure quality.

3-500ZG Comparison

Single: \$189.95/ea.
Matched 2: \$379.90/set
Matched 3: \$569.85/set

3-500ZG RFP

"RFP" line is the best quality graphite anode tube in the Eimac® format. Virtually an exact copy of the Eimac 3-500ZG in both mechanical and electrical characteristics. RF PARTS 3-500ZG easily represents the best value for the price.

All tubes receive 100% RF PARTS' testing.

2 YEAR WARRANTY

2 year Limited Transmitter Tube Warranty From RF Parts Company.

Single: \$179.95/ea.
Matched 2: \$359.90/set
Matched 3: \$539.85/set

3-500ZG Taylor

First Quality Tube at a Competitive Price

All tubes receive 100% RF PARTS' testing.

One year Limited Transmitter Tube Warranty from RF Parts.

List Price: \$349.00
Special: \$329.95 ea.

3-500ZG Amperex

Not available as matched, but we supply tubes from the same lot.

SPECIAL

Graphite anode tube of superior quality equal to Eimac 3-500ZG. Made in France and marked 3-500Z/8802. Very low failure rate.

Each tube is fully tested by RF Parts prior to shipment.

One Year Limited Transmitter Tube Warranty from RF PARTS.

Single: \$159.95/ea.
Call for availability.

3-500ZG China

Call for availability.

This excellent economy tube manufactured to U.S. specifications for RF Parts Co..

Each tube is fully tested by RFP prior to shipment.

One Year Limited Transmitter Tube Warranty from RF PARTS.

6146B & 6146W

\$23.00 ea.
\$49.00/matched pair
\$73.50/matched 3

6146B TAYLOR

Excellent quality 6146B suitable for Amateur and Commercial Radio transmitters.

All tubes receive and pass the RF Parts Quality Control testing, and carry a limited transmitter tube warranty of one year.

Available as singles or in matched sets for balanced tube operation.

\$18.95 ea.
\$39.00/matched pair

6146W GE

Basic 6146W military surplus tube. Similar to 6146A.

One Year Limited Warranty through RF PARTS.

* This version of 6146W is not interchangeable with 6146B.

NOTE: Not recommended for Kenwood.

\$59.90/matched pair
\$89.95/matched set of 3

6146W SYLVANIA-ECG/Philips

RF PARTS made a special buy of the very desirable last production run ECG-Philips (Sylvania) 6146W tubes.

These hard-to-find ruggedized JAN Military Grade tubes were taken from the last Sylvania 6146B production run and subjected to higher Quality Control standards.

The unique mechanical and electrical characteristics of Sylvania manufactured tubes make them a favorite with technicians and engineers.

Each tube is individually tested by RF PARTS to ensure top performance. Excellent for Yaesu, Heathkit, Kenwood, etc.

One Year Limited Warranty through RF PARTS.

572B Comparison

572B TAYLOR *Select***Best Value**

High-mu power triode intended for use in Class AB2, Class B, and Class C RF and audio amplifiers. The modern TAYLOR 572B is virtually an exact copy of the original 572B/T160L US tube.

TAYLOR is the preferred choice for FL2100, SB200/SB201, 10-160L, 30L1 linear amplifiers.

Base indexed and internal structure aligned and supported for both horizontal and vertical operation.

\$49.95 each
\$99.90/matched set of 2
\$149.85/matched set of 3
\$199.90/matched set of 4

Each tube fully tested by RFP prior to shipment.

One Year Limited Warranty through RF PARTS.

572B Svetlana

Excellent Russian tube made exclusively for the U.S. market.

(Note: FL-2100B requires Bias Supply modification to use Svetlana Tubes.)

Base indexed and internal structure aligned and supported for both horizontal and vertical operation.

Low loss ceramic 4 pin base.

Each tube tested and matched by RF Parts Co.

One Year Limited Warranty through RF PARTS.

Call for current price.

572B China

SPECIAL**Ameritron AL-811 users LOOK!**

An excellent economy tube manufactured to U.S. specifications.

Replace the 811A's with these 572B tubes in your Ameritron AL-811 or AL-811H.

Our 572B.PRC tube is a copy of the original U.S. 572B/T160L.

Each tube fully inspected and tested by RF Parts Co.

One Year Limited Warranty through RF PARTS.

\$39.95 each
Call for availability.

811A

811A TAYLOR *Select***Best Value**

The TAYLOR 811A is the best quality tube in production today. Usage tests show it to be equal to the respected Svetlana, RCA, and GE 811A. Base indexed and internal structure aligned and supported for both horizontal and vertical operation.

Excellent tube for AL-811/AL-811H

Ideal for the Collins 30L1 and similar equipment where tubes mount horizontal.

Each tube fully inspected and tested by RF Parts Co.

One Year Limited Warranty through RF PARTS.

\$21.95/each
\$44.90/matched set of 2
\$67.35/matched set of 3
\$89.80/matched set of 4

811H Svetlana

811H Heavy Duty Substitute for 811A

Just drop this tube into 811A socket. No changes or adjustments. Ideal for Ameritron AL811 & AL811H Series Amplifiers, where the tubes are run hard. RF Parts makes special selection from our Ceramic Based Svetlana 572B stock and has assigned the 811H part number to them.

Rated maximum plate voltage 1900V.

Each tube tested and matched by RF Parts Co.

One Year Limited Warranty through RF PARTS.

Call for availability.

REBUILT TRANSMITTER TUBES

For Transmitter and Industrial Applications

RF PARTS maintains a large inventory of Rebuilt Metal-Ceramic tubes at competitive prices.

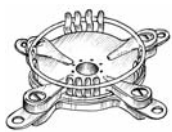

Your “dud core” may be rebuilt or accepted in exchange for one from our inventory.

RF Parts can supply most rebuilt tubes from stock, from 1500W thru the 20,000W sizes.

Sockets

@ Denotes our 100% equivalent to manufacturers original part.
-P Denotes removed from new & surplus equipment. Guaranteed in very good condition.

Tube Base 4CX250B Series

This is the standard ceramic base for use in building test fixtures, or as a connector. Mates with the SK1A socket.

Large quantity available.

Part #: FT250-TAY
\$24.95 ea.

Dual Tube & Socket Kit

Designed for 2-30 MHz Power Amplifier. In excellent condition, removed from military communications equipment.

Kit includes: • Dual Socket

• Pair of 4X250F Tubes

The 4X250F is the same as the 4CX250B, but with a 26v filament.

Part Number: DTS&C-2
Price Each: \$179.00

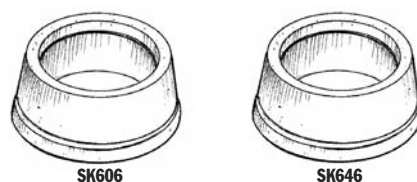

Note: Use filament transformer #F-41X \$9.95.

Supply Limited.
